

'NURTURING TALENT IS A BIG CHALLENGE'

What is the biggest professional challenge that you face in your role as a principal?

Students today are a reservoir of talent and energy. The biggest challenge is to identify and nurture their talent and give encouragement to let that talent blossom. As head of an institution, I need to be the pedagogical leader for teachers, students and parents. The onus of setting a vision and carving a progress path for my school rests on me and my team.

Once a teacher, always a teacher. Do you agree?

Yes, I do agree. It's impossible to get out of this calling. The sheer joy of holding a little hand and then watching it grow, learn, react as time passes is a gratification and no one can wriggle out of it. The biggest satisfaction comes when I see my students as successful and noble citizens. The will to give more to my profession grows stronger.

Success has become an obsession with people of all ages nowadays? Comment.
I don't see anything wrong in that. Unless one is obsessed with an idea, he would not be able to change it to reality. The quest

for success drives all human activity. Had Thomas Alva Edison not been obsessed with success, he wouldn't have invented the bulb. The only concern is the haste with which this new generation tries to climb the ladder to the top which may need to be discouraged. At the same time we must ensure that the students get information so that they can explore their interests and take up tasks they love to do.

What is your view on GenNext's biggest strength? Which are the key areas of improvement?

Confidence and curiosity are the two attributes that define contemporary students. The youth today are well informed, talented and ambitious. They are tech savvy and resourceful citizens of the world. Their biggest strength is their insatiable desire to learn.

What emphasis do you put on teacher training?

A class is the mirror of its teacher's personality. Sensitising teachers towards the dignity of their profession is important. Gennext is vulnerable

and insecure in many ways. Modern day teachers not just need to be well versed with their subjects, but also need to be an emotional and behavioural guide and a role model. Regular workshops, life skills training, stress management exercises are taken up.

With their vast experience and wisdom, how can the elderly contribute to student's all-round growth and development?

The elderly can play a pivotal role in bridging the generation gap and in sensitising the youth about the Indian value system. My experience has been that children brought up in joint families can adjust easily among their peer groups, are more patient and happy as compared to the children from nuclear or broken families. We at DRS encourage happy relationships between generations.

What according to you is the role of media in education?

The impact of media on society is speedy and strong. Hence, media in all its forms can play an important role in spreading education which in turn will decide the quality of our citizens.

Tell us about your leisure activities and how you spend time with family and friends?

It is said leisure is a prerequisite to creativity. I love to read, so books are a constant friend and great stress buster. Nothing gives me more pleasure than time spent with family. My family is my biggest support system, inspiring me

to devote myself to the work I love. No matter how busy I am, I make time to enjoy with family and friends; we watch a movie together or go for outdoors. These moments

St Margaret Sr Sec organises blessing event

Teachers and parents showered their blessings on the students.

St Margaret Sr Sec School, Prashant Vihar, organised a Blessing Ceremony for students titled "Swasti." The programme began with a hymn. Then students presented a musical skit on their 14 years at St Margaret School chairman BR Goswami, managing director Navneet Goswami, Navneet Goswami and principal Renu Jain graced the occasion. They urged the students to work hard in their chosen field. Class 12 achievers were awarded certificates of excellence in scholastic and co-scholastic areas. Each student was gifted with a Sanskrit plant that symbolises the joy and good fortune. Teachers and parents showered their blessings on the students.

Constitution in focus

Students raised awareness

DAV Public School, Ashok Vihar, celebrated the 70th year of the constitution in which students prepared pamphlets mentioning its key features. Principal Kusum Bharadwaj took the initiative to hold the event for creating awareness

This forum provides school principals/teachers a chance to share their views and insights on a wide range of subjects with students.
